## Section 1. CITATION.

1.1 This Ordinance may be cited as the "Airline Rates, Fees \& Charges Ordinance".

## Section 2: FINDINGS.

2.1 The Greater Asheville Regional Airport Authority was created by Session Law 2012-121, which was ratified by the General Assembly of North Carolina on June 28, 2012.
2.2 Section 1.6(a)(7) of Session Law 2012-121 gives the Greater Asheville Regional Airport Authority the ability to, among other things: "[m]ake all reasonable rules, regulations, and policies as it may from time to time deem to be necessary, beneficial or helpful for the proper maintenance, use, occupancy, operation, and/or control of any airport or airport facility owned, leased, subleased, or controlled by the Authority . . . ".
2.3 Section 1.6(a)(6) of Session Law 2012-121 gives the Greater Asheville Regional Airport Authority the authority to: "[c]harge and collect fees, royalties, rents, and/or other charges, including fuel flowage fees for the use and/or occupancy of property owned, leased, subleased, or otherwise controlled and operated by the Authority or for services rendered in operation thereof.".
2.4 Section 1.6(a)(21) of Session Law 2012-121 gives the Greater Asheville Regional Airport Authority the ability to: "[e]xercise all powers conferred by Chapter 63 of the General Statutes [of the State of North Carolina] or any successor Chapter or law.".
2.5 North Carolina General Statute Section 63-53(5) further gives the Greater Asheville Regional Airport Authority the authority: " $[t] o$ determine the charge or rental for the use of any properties under its control and the charges for any services or accommodations and the terms and conditions under which such properties may be used, provided that in all cases the public is not deprived of its rightful, equal, and uniform use of such property.".
2.6 The Greater Asheville Regional Airport Authority is obligated under federal law to maintain an airport user fee and rental structure that, given the conditions of the Airport makes the Airport as financially self-sustaining as possible.
2.7 The Greater Asheville Regional Airport Authority is further obligated under federal law to establish an airport user fee structure that is fair and reasonable to all users, and not unjustly discriminatory.
2.8 In or around Fall 2014, the Greater Asheville Regional Airport Authority contracted with an airport consulting firm, who conducted a comprehensive airline rate and charge study at the Airport, in accordance with the methodology stated in the Rates and Charges Policy promulgated by the Office of the Secretary of the Department of Transportation and by the FAA.
2.9 Since approximately February 2015, the Greater Asheville Regional Airport Authority has consulted with and made repeated, good faith efforts to reach an agreement regarding rates, fees and charges with the Airlines, and to resolve all disputes asserted by the Airlines, and after adequate and timely consultation with the Airlines and with the airport consulting firm, Greater Asheville Regional Airport Authority now desires to implement, by ordinance, the fair, reasonable and not unjustly discriminatory rates and charges structure as proposed by the airport consulting firm.

## Section 6. RATE MAKING METHODOLOGY

6.1 Rates and charges shall be established annually based on the methodology set by the Authority below and in the Schedule of Rates and Charges referenced in Section 8 below.
6.2 Rates and charges shall be developed under a commercial compensatory rate making methodology.
6.3 Rates and charges shall be calculated and set at the beginning of each Fiscal Year.

### 6.4 Terminal Building Operating Requirement.

6.4.1 For purposes of this Ordinance, the Terminal Building Cost Center shall consist of the current Terminal Building, including the ticketing wing, the Holdrooms, baggage claim facilities, baggage make-up facilities, and passenger loading bridges/regional boarding ramps, as well as the areas immediately adjacent to the west side of the terminal building utilized for baggage tug drives and baggage tug storage, and all public areas, concession areas, and other leasable areas.
6.4.2 The Terminal Building Operating Requirement shall be calculated as specified in Sections 6.4.2.1 through 6.4.2.4 below:
6.4.2.1 By summing the elements of the Airport Operating Requirement allocated to the Terminal Building Cost Center. Currently, this includes O\&M Expenses, O\&M Reserve Requirement, net Depreciation, Amortization, Capital Outlay, and Debt Service.
6.4.2.2 By then reducing the total from Section 6.4.2.1 by non-airline revenue credits applied by the Director. These revenue credits are reimbursements and offsets to base costs. This results in the Net Terminal Building Operating Requirement.
6.4.2.3 The Net Terminal Building Operating Requirement calculated in Section 6.4.2.2 is then divided by Rentable Space to obtain the Terminal Building Rental Rate.
6.4.2.4 Finally, each Airlines' share of cost is then derived by multiplying the Terminal Building Rental Rate by the Terminal Building Airlines' rented space (preferential use) and Airlines' share of Joint Use Space as determined by the Joint Use Formula.
6.4.3. Joint Use Space. Joint Use Space shall be classified as Baggage Make-Up, Baggage Claim and Gate Area. Airline's share of the Terminal Building Rentals for Baggage Make-Up and Baggage Claim Joint Use Space will be determined as follows: (1) eighty-five percent (85\%) of the total rentals due shall be prorated among Airlines using Joint Use Space based upon Airline's share of Checked Bags, (2) fifteen percent (15\%) of the total rentals due shall be prorated equally among the Airlines using Joint Use Space. Airline's share of the Terminal Building Rentals for Gate Area Joint Use Space will be determined as follows: (1) eighty-five percent (85\%) of the total rentals due shall be prorated among Airlines using Joint Use Space based upon Airline's share of Enplaned Passengers, (2) fifteen percent (15\%) of the total rentals due shall be prorated equally among the Airlines using Joint Use Space.
6.4.4 Per Turn Fee for Market Share Exempt Carriers. The Per Turn Fee for Market Share Exempt Carriers is calculated by dividing the Per Turn requirement by the total estimated departures.

### 6.5 Airfield Area Operating Requirement.

6.5.1 For purposes of this Ordinance, the Airfield Area Cost Center consists of those areas of land and Airport facilities which provide for the general support of air navigation, flight activity and other aviation requirements of the Airport. The airfield includes runways, taxiways, the terminal apron, aircraft service areas and those ramp areas not included in any other cost center, approach and clear zones, safety areas and infield areas, together with all associated landing navigational aids and Airport facilities, aviation controls, and other systems related to the airfield. It also includes areas of land acquired for buffer requirements for the landing areas of the Airport, all land acquired for Airport expansion until the land is used or dedicated to another cost center, and all Airport noise mitigation facilities or costs. The Airport's triturator facility, storage areas for airline glycol equipment and tanks, and any fueling facilities and equipment provided to serve the airlines on the terminal apron are also included in the airfield cost center.
6.5.2 The Airfield Area Operating Requirement shall be calculated as specified in Sections 6.5.2.1 through 6.5.2.4 below:
6.5.2.1 By summing the elements of the Airport Operating Requirement allocated to the Airfield Area Cost Center. Currently, this includes the O\&M Expenses, O\&M Reserve Requirement, net Depreciation, Amortization, Capital Outlay, and Debt Service.
6.5.2.2 By then reducing the total calculated in Section 6.5.2.1 above by nonairline revenue credits applied by the Director. These revenue credits are reimbursements and offsets to base costs. This results in the Net Airfield Area Operating Requirement.
6.5.2.3 The Net Airfield Area Operating Requirement calculated in Section 6.5.2.2
is then divided by the estimated Certified Maximum Gross Landed Weight (CMGLW) of all Airlines' Revenue Aircraft Arrivals to determine the Airlines' Landing Fee rate.
6.5.2.4 The Airlines' Landing Fee rate is then multiplied by the estimated CMGLW of the Airlines.
6.5.3 All costs incurred by the Authority for mitigation or damages resulting from noise, environmental incidents or conditions, aircraft fueling, or other Airport aircraft-related conditions or activities will also be charged and allocated to the Airfield Area Operating Requirement.

### 6.5.4 [RESERVED]

6.5.5 Affiliate. Each Affiliate's operations shall be counted and recorded jointly with Airline's and shall be at the same rate.
6.5.6 [RESERVED]
6.5.7 Other Cost Centers. All other cost centers are not included as part of the Airlines' rates, charges and fees. Authority may apply revenues from the other cost centers to offset expenses at a time, and in an amount, based on the sole discretion of the Director.
6.5.8 Unless otherwise provided herein, all rates, fees and charges are calculated as described in Schedule of Rates, Fees and Charges referenced in Section 8 below.
